this ♥♥♥♥♥ing♥♥♥♥♥doesn't work i bought premium but it still doesn't register that i have so i can't log in to ESEA. Worth it
i would say for \$.62 it is a good deal and i ended up getting it for free by selling some of my trading cards!. I know, it sounds pricy and in all reality, the 2016 Season Pass is pricy.

Luckily, you save a lot on time, effort and in game money. You don't have to pay fight money to get your characters, but instead you get to save it up for costumes and characters later in 2017.

Though, the pass should only be priced around 15.99. 30 bucks just for a Seasons Pass that's six characters and an extra costume.

Overall pricy. But it's good for casual players like me who don't feel like playing the game all day and neither is amazingly good at it. But if you play hardcore, just skip this seasons pass and whip some butt in the game and online.. Thumbs up! Easy to use. Great for beginners. 53mins.

Never need to play this one again.

Try your mum though if she likes mindless, time consuming fun on say... a face book game or something.

Nah it's not that bad, actually pretty good value if you enjoy score based games and achievements. (Tetris score attack etc)

James Dudding.

I bought this game in hopes that it's like Switchball for the Xbox 360. Well, it is.. kinda. But at the same time, worse.

The controls are abysmal. There is no mouselook whatsoever but only switching the camera by holding Shift and pressing either W,A,S or D (WTF). Also, no controller support.

Next is that the levels are rather simplicity than actual level design. They're boring, generic and lack any challenge.

Sometimes when you pause you get Russian text instead of English.

Please, stay away from this title.. Woah... it challenges me. Hmm... nice story, nice graphic and nice gameplay.

I need more challenges one. Keep it up!!!. wow couldnt play with friends 0/10. so far so good i love it for what it is however.unless its essentially to the story id love to see a little charecter creater however thats just me being picky. i do love it and congrats on getting something mlp on steam i hear hasbro can be asses about anything slightly related to mlp however do get fooled so far this to me is just a game that has ponys in it and its pretty creepy and the controls arnt so bad either il update once im done :). If you are a Serious fan then I dont know why you need me to tell you to get this game. If your not then obviously youve never played one before (a joke), but seriously (:p), I think this side note to the fanchise is a charming addition to a fun shooter.. PÁ CARAI VÉI!. The game is kind of short and repetitive, but for it's price, I really recommend it!

You will surely get at least 1 hour of gameplay, which is somewhat impressive for a title this simple.

The graphics and sounds are okay, the gameplay feels balanced, and the customization and battles are really well designed.

Overall, I'd give it a 8/10. This game is a lot more fun than I expected it to be! It is casual and kind of repetitive in a relaxing way. I finished it in 6 hours, but I am pretty sure I will play it again. I haven't seen all the plants yet! I do hope more plants and pots, and new ranks\goals, are added in the future.. It's unpolished and not what I expected but I ended up really liking the game and was even a little sad because I completed it. The thing that makes this game stand out from other match-3 games that I've played is that you can move pieces diagonally. There's also no timer for the main mode so it was fun to just chill out to my own music and enjoy the gentle brain tease.
